FEATURES & BENEFITS

Perfect for:

- Gravity retaining walls up to 3'h (0.9m).
- Parapet walls, pilasters, columns and stairs.
- Outdoor living designs: fireplaces, fire pits, kitchens, benches and more...

Unique Finish:

- Offers the Old World appeal of rustic, hand-laid stone.
- Each unit features two different face dimensions simplifying the creation of random patterns.
- Install as an exposed end unit or a 90° corner, each unit has the flexibility to be used in multiple positions within a project.

Color & Shape

- Produced in colors that enhance its natural stone appearance.
- Each unit has both a 90° angle and a tapered (angled) side, allowing the units to be used in 90° corners, tight fitting straight line walls, and radii at curves.

Note: Unit color, dimensions, weight & availability varies by manufacturer.

INSTALLATION INSTRUCTIONS

Mark & Dig

Mark an outline of your project. Then dig a shallow trench 12" (305mm) deep by 20" (508mm) wide.

Base & Tamp

Add 6" (152mm) of granular base material. Compact base to avoid settling.

Level

When burying the first course of units, it is very important to level them front-to-back and side-to-side.

Pin & Stack

Insert pins in desired hole location for setback or vertical wall options. Place next course of units centered over units below.

Cap

Finish the wall with a cap unit to give it a polished look. Secure in place with concrete adhesive.
