INSTALLATION

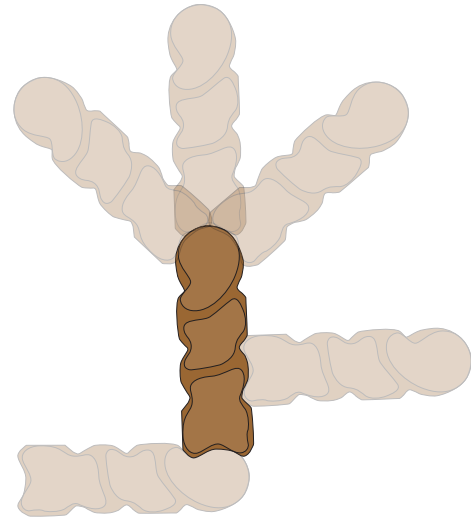

Mark & Dig

Mark an outline of your project. Then dig a shallow trench 3" (76mm) deep by 6" (152mm) wide to receive the edging unit.

Place & Level

Place units in the trench.

180° Rotation

Lock the ball from one unit into the socket of the next to achieve any angle up to 180°. Curves, radii and corners are a snap!

Use this chart to estimate the number of units you will need.
