**Typical Planting Limits Plan**

Compac Unit - Near Vertical Setback Shown

**Notes:**

1. All planting offsets shall be a minimum of 2' + the opening diameter as measured from face of the wall.
2. Lateral spacing between openings shall be a minimum of 3' x opening diameter.
3. Soil reinforcement shall be carefully cut to avoid disturbance of adjacent reinforcement.
4. Only top two layers of reinforcement may be cut to allow planting of tree root ball.
5. Extreme care shall be taken if installing irrigation systems to not damage soil reinforcement.
6. Numbers in parentheses are for example only.
